

## REMARKS

In accordance with the foregoing, claim 11 has been amended. Claims 1-12 are pending and under consideration.

### Claims 1-10

Applicants note that page 2 of the Office Action indicates that claims 1-10 are in condition for allowance.

### Rejection of Claims 11-12 Under 35 U.S.C. §103(a)

The Office Action rejects claims 11-12 under 35 U.S.C. §103(a) as being unpatentable over Dozier. Applicants amend claim 11 to further clarify claim 11.

Dozier does not disclose, teach, or suggest at least, "a bracket including a supporting bracket attached to a wall, wherein the supporting bracket has an upper opening and an inside of the supporting bracket has a hollow portion; and an adjusting bracket... wherein the hollow portion of the supporting bracket at least partially accommodates the adjusting bracket, and the display body is a luminescent display," as recited in claim 11.

Claim 12 depends from claim 11 and includes all of the features of claim 11. Therefore, for at least these reasons, claim 12 is also patentably distinguishable over the cited reference.

Accordingly, withdrawal of this rejection is respectfully requested.

### Summary

Claims 1-12 are pending and under consideration. It is respectfully submitted that none of the references taken alone or in combination disclose the present claimed invention.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.
